# HBA-B Series Hydraulic Bagging Machine

## Equipment Overview

- PLC automatic running The baler can be used for pressing wood shavings, rice husk, wood sawdust, used cloth, Coconut husk
- Bale weight from 15-55kgs
- Baler capacity from 1.0t-3.0t per hour
- Motor power from 7.5-37kw for different material and throughput

## Unique Features

- PLC automatic running
- Pressing times can be adjusted
- Conveyor feeding
- Ce certificated
- Robust construction for baler structure
- The hopper comes the Monitoring window

## Technical Specification

MODEL	HBA-B60	HBA-B120	HBA-B180
Pressing force	60 tons	120 ton	180 tons
Bale Size	600×400×300mm	700×400×300mm	750×430×330mm
Bale Weight(Wood Shaving)	15-20KG	20-25KG	40-45KG
Bale Weight(Rice Husk)	20-25KG	30-35KG	50-55KG
Throughput	2.0T/H	2.5T/H	3.0T/H
Motot Power	7.5/18.5KW	15/22KW	30/37KW
Machine Size	2340×3050×2000mm	2430×3370×2000mm	5200×3200×2000mm
Machine Weight	3.5T	5.0T	8.0T
